BPAM releases 2014 BPAM Almanac on bonds and sukuk

Posted on February 10, 2015, Tuesday

KUCHING: Bond Pricing Agency Malaysia (BPAM) recently released the 2014 Malaysia Bond and Sukuk Almanac.

This is the second edition of BPAM's almanac following its maiden issue last year.

The Almanac features an overview of the Malaysian bond market in 2014, a complete profile and listing of government and corporate bonds and sukuk active as at Dec 31, 2014 and the top issuers, lead arrangers and trustees in various categories. In a snapshot, the 300 pages book, covers all the information essential for market players, new issuers as well as local and international investors.

"BPAM was pleased with the overwhelming response to last year's BPAM Almanac. We hope to establish an annual tradition with this next edition of the 2014 Malaysia Bond and Sukuk Almanac.

"A detailed publication that provides an insight into the actual depth and breadth of the Malaysian bond and sukuk market is an invaluable resource.

"In line with our one-stop bond information platform to market players, we hope to make the annual BPAM Almanac, the reference material on the Malaysian bond market," added Meor Amri Meor Ayob, BPAM's chief executive officer.
